

STAR YOUTH ASSOCIATION (SYA) - CHETHANA PROJECT, GOOTY

HEALTH IS BETTER THAN INCOME

We are nearly 200 families resident at Dharmapuram village of Anantapur district, our main occupation is Agriculture, 70% farmers are depending on rain fed crops. We are cultivating the commercial crops because for earning more money for their families.

Star youth Association organization guided our village farmers, according to the changes of weather and sustainable water management to improve in scientific and technical methods from since 10 years. On April 2015 the Star Youth Association (SYA) was introduced a new project which the name of CHETHANA in our village Dharmapuram. In this project the Star Youth Association Facilitator Support explained about the importance of millets cultivation and methods of organic, by its importance of balanced diet, it is good for health.

**SYA-CHETHANA Project Training to
The Dharmapuram Village farmers**

Sheep Penning

So in our village 2015 in Kharif season organic methods followed by 10 farmers are cultivated in millets and they were given training. SYA-CHETHANA project by giving suggestions to the farmers to less expenditure by given high yield. These 10 families are taken the diet of Korra, the rest korra given to other farmers for diet, Since a long time and now a day's who were cultivated rain fed crops and realize the importance of millets they are also cultivated millets and they also supplied the balanced diet for their families. These families are says that ***Health is better than Income*** by this aim they are cultivated millets.
